Jan Czerwiński
Mobile developer

I am a Mobile Developer with a broad skill set that includes programming languages such as Go, Python, TypeScript, Swift, and Ruby. While I possess the capability to handle full-stack development, my true passion lies in the realm of mobile development.
My specialization is React Native and iOS development with SwiftUI. Notably, I have spent the past year working on my own iOS cad drawing app, allowing me to master SwiftUI's intricacies.
I am enthusiastic about leveraging my expertise to contribute to innovative mobile projects. Let's collaborate and create something exceptional together!

Experience

2023-2024
cadaway
Ios Fullstack developer

Im working on my ios drawing app, using SwiftUI with pencilkit. I use a lot of linear algebra for it. The backend is in firebase. I can't say much about this project, but you can learn a little bit more about it as well as my other projects on my webiste.

2021 - 2024
Freelance
Mobile and Fullstack developer

I've worked on some projects as a freelancer during this time:
- security camera hub with AI features(next, strapi)
- a gamefied mental health react native app
- an LLM travel planning web app

2021 - 2022
UxPin
Full Stack Web Developer

- Automating the creation of landing pages
- Implementing and maintaining third party and custom user tracking infrastructure,
- Optimizing pages and helping mproved SEO ratings,
- Simplifying project's architecture, which helped to reduce Heroku bills,
- Automating reports for our Sales team,

2018-2021
Precise Lab
Fullstack Mobile developer

- Handling relationships with 3 clients on my own,
- Collecting client's requirements.
- Estimating and pricing features,
- Preparing technical documentation,
- Creating mobile and web apps from scratch,

2017-2018
Projekt Nano
Barista

At this job, I have learned one of the most important skills in my career - communication. While working at the cafe, I had to learn to effectively engage with customers, manage current tasks efficiently with my coworkers, and adapt to unexpected situations on the fly. This experience taught me to work in fast-paced environments, a skill that continues to serve me well in my professional journey.
